Contribution regulations
of the University of Witten/Herdecke
from winter semester 2026/2027

The University of Witten/Herdecke levies contributions and fees to cover the overall costs, which are summarized below. These apply from the winter semester 2026/2027.

§ 1
Application for a place at university

Contributions towards the costs of applying for a place at university

The following contributions are charged per application for a place at the university.

Study programs of the faculties/departments for	Contribution
Economy and Society*	€50.00
Master's in Nursing Science, Master's in Community Health Nursing, and Master's in Ethics and Organization	€50.00
Psychology and Psychotherapy	€150.00
Human medicine	€250.00
Dentistry, oral and maxillofacial surgery	€300.00

Students enrolled in a double degree program are exempt from the application fee for the second program. However, if a student applies for a double degree program within UW/H and is not admitted to the second program, they are obligated to pay the application fee.
*Applications for degree programs at the Faculty of Economics and Society that are received by December 15th (for the summer semester) or June 15th (for the winter semester) will be exempt from the fee ("Early Bird").

§ 2
Enrollment / Re-registration

1. Social contribution

The Witten/Herdecke University Association (Hochschulwerk Witten/Herdecke eV) levies a social contribution from all students, currently amounting to €100.00 per semester for the 2026/2027 winter semester. Payment is made to the Witten/Herdecke University Association (Hochschulwerk Witten/Herdecke eV).

2. Contribution towards the Germany semester ticket

The Witten/Herdecke University Association (Hochschulwerk Witten/Herdecke e.V.) has concluded a contract with the Rhine-Ruhr Transport Association (VRR) and the Bochum-Gelsenkirchen Tramways (Bogestra) on behalf of the university's students and is solely authorized to collect the fee for the Germany Semester Ticket. The fee for students at UW/H currently amounts to €226.80 for the Germany Semester Ticket for the 2026/2027 winter semester. The Witten/Herdecke University Association may adjust this fee to reflect changes in the costs calculated by the VRR and Bogestra . Payment should be made to the Witten/Herdecke University Association.

3. Student financial contribution

The university levies a financial contribution from students for the duration of the standard period of study defined in these fee regulations. The Witten/Herdecke Student Association has implemented a model for collecting these financial contributions based on the following criteria:

Freedom of access to higher education
The university selects its students based on personality, academic interests, and motivation. This selection must be independent of the applicants' financial background. The freedom of all students to pay their tuition fees after or during their studies reflects this principle.

Freedom to design one's studies
Freedom and personal responsibility in shaping one's studies must not be restricted by financial contributions. An economization of studies—a limitation of the study duration due to financial constraints—is inappropriate in this regard. This principle is reflected in the fixed-amount, immediate payment.

Freedom of occupational choice
All graduates should be free to choose their workplace. This choice should not be restricted by a fixed amount of debt. This principle is reflected in the income-dependent deferred repayment system , meaning that after graduation, students contribute according to their financial means.

The financial contributions students make to the university budget serve to ensure the long-term sustainability and preservation of the university. The extent of this contribution to the success of the University of Witten/Herdecke is determined by the university's financial resources and the students' appreciation for their institution, not by the number of services they utilize. In this spirit, the members of the Student Association form a community of solidarity and support one another in realizing the "Three Freedoms."
The financing contributions are due in monthly installments on the 15th of each month for the respective month. Payment of these contributions to the Student Association Witten/Herdecke e.V. discharges the student's debt. This applies as long as a corresponding agreement regulating the transfer of the financing contribution from the Student Association to the university is validly concluded between the university and the aforementioned Student Association .

a) Payment options

The financing contribution can be made using one of the following payment options:

Option 1 – Fixed-amount immediate payment

Immediate payment of the defined fixed amount ("total amount") in monthly installments over the defined payment period during the studies.
No further payment is required after the standard period of study has ended. The total of the fees payable over the standard period of study always equals the fixed amount. If fewer semesters are needed than the standard period of study allows, the full fixed amount is still payable (see also the regulations for students transferring into the program or dropping out).

Option 2 – Half immediately and half later

Half of the amount is paid immediately in monthly installments over the defined payment period during studies, and a reduced income-dependent payment is made after studies in accordance with a personally concluded contract with the Student Society Witten/Herdecke eV regarding the promotion of studies at the University of Witten/Herdecke.

Option 3 – Income-dependent deferred payment

Income-dependent payment after graduation according to a personally concluded contract with the Student Society Witten/Herdecke eV regarding the promotion of studies at the University of Witten/Herdecke.

b) Tuition fees for the faculties of Health and of Economics and Society

The tuition fees for each degree program can be found in the following tables:

Tuition fees of the Faculty of Health

Faculty of Health Study program according to semester of matriculation	ECTS	Regular studies time (RSZ) [1]	**Payment option 1** Instant payment Contribution amount Monthly (in RSZ)	In total	**Payment option 2** Half payment immediately Half payment later Contribution amount Monthly (in RSZ)	In total	Percentage of future income [2]	**Payment option 3** Later payment Contribution amount Percentage of future income [2]	Repayment period at ZV 2 & 3 [5]

1. For a full course of study, tuition fees are paid for 10 semesters. Therefore, the standard period of study for which fees are paid differs from the standard period of study stipulated in the study regulations.
2. The percentage is a proportion of the relevant income. For the definition of income, see the agreement on the funding of studies at the University of Witten/Herdecke (in particular § 9).
3. The following persons are referred to as external students of a Master's degree program: All students who enroll in the Master's degree program at the University of Witten/Herdecke and have not yet completed a degree program or course of study at the University of Witten/Herdecke.
4. This percentage applies to external students who are enrolling at the University of Witten/Herdecke for the first time and only for the study period.
5. For the repayment period, see the contract for the funding of studies at the University of Witten/Herdecke (in particular § 3 and § 4).

Tuition fees of the Faculty of Economics and Society

1. For a full course of study, tuition fees are paid for 10 semesters. Therefore, the standard period of study for which fees are paid differs from the standard period of study stipulated in the study regulations.
2. The percentage is a proportion of the relevant income. For the definition of income, see the agreement on the funding of studies at the University of Witten/Herdecke (in particular § 9).
3. The following persons are referred to as external students of a Master's degree program: All students who enroll in the Master's degree program at the University of Witten/Herdecke and have not yet completed a degree program or course of study at the University of Witten/Herdecke.
4. This percentage applies to external students who are enrolling at the University of Witten/Herdecke for the first time and only for the study period.
5. For the repayment period, see the contract for the funding of studies at the University of Witten/Herdecke (in particular § 3 and § 4).

c) Transitional arrangement

For students whose initial enrollment is not for the winter semester 2026/2027, but for the semester before, the contribution regulations applicable at the time of matriculation continue to apply without restriction to the financing contributions, as listed in § 2 para. 3 b).

d) Regulations for career changers, students who have dropped out of university, and students with temporary enrollment

Full-time degree programs are divided into two phases of study. The first phase is completed upon passing the equivalency examinations for the first part of the medical licensing examination, passing the second part of the dental licensing examination, or obtaining a Bachelor's degree. The second phase concludes with fulfilling all requirements for the practical year (no coursework), passing the third part of the dental licensing examination, or obtaining a Master's degree. Tuition fees for a completed phase of study or a full course of study are listed in the tables under § 2 para. 3 b).

Career changers

Students who do not begin their studies at the beginning, but during the course of a study phase (1st or 2nd study phase) (lateral entrants) are liable to pay the full contribution amount for the entire study phase in accordance with § 2 para. 3 b).

University dropouts

Students who leave the university without a degree in accordance with Section 2 Paragraph 3 d) (dropouts) must pay their fees according to the period of their enrollment, but not exceeding the standard period of study according to Section 2 Paragraph 3 b) of the study phase. Fee payments cease at the end of the month in which deregistration occurs.

Students who have completed the first phase of their studies with a degree and then discontinue their studies are liable for tuition fees for the first phase according to the standard period of study as per § 2 para. 3 b) and, in addition, for the number of semesters enrolled in the second phase of their studies, but not exceeding the standard period of study as per § 2 para. 3 b). These regulations apply analogously to students who have definitively failed examinations.

Students enrolled on a temporary basis

The university may enroll students from foreign universities (e.g., exchange students) on a temporary basis, typically for two semesters. Students enrolled on a temporary basis are not eligible to take final examinations. Tuition is waived with a valid exchange agreement. Otherwise, tuition fees are mandatory. The amount of the fees is determined by the corresponding monthly upfront payment.

e) Dual-study students

Dual-degree students are those who, in addition to their first degree program, are pursuing a second degree program with the aim of obtaining a further qualification in the same subject. Graduates of the University of Witten/Herdecke who commence studies at the University of Witten/Herdecke within three semesters following their deregistration are also considered dual-degree students.

If both human medicine and dentistry are studied at the university (simultaneously or consecutively), the financial contributions resulting from the respective applicable fee regulations must be paid for both degree programs or for completed study phases. This situation therefore does not constitute a double degree program within the meaning of the fee regulations.

Students enrolled in two programs are only required to pay fees for the program with the higher tuition fee according to § 2 para. 3 b), but only up to the amount of the higher tuition fee according to § 2 para. 3 b).

If a student discontinues the course of study with the higher total amount and continues the other course of study, a payment obligation for the discontinued course of study exists if the contributions due according to the study dropout regulation § 2 para. 3 d) “Study dropouts” exceed the total amount of the course of study in which a degree is obtained.

If both courses of study are discontinued, contributions are only payable for one of the two courses of study, namely for the course of study which has a higher payment obligation according to the regulations for students who discontinue their studies, § 2 para. 3 d) "students who discontinue their studies".

a general rule, contributions already paid within a study phase are not refunded. This rule applies analogously to the amount of the repayment obligation recorded on a monthly basis until the end of the standard period of study.

f) Change of study program (excluding changes from the first to the second phase of study)

Changing your course of study within the university should be done before the third semester. Further details are regulated by the enrollment regulations in their currently valid version.
If students change their course of study, they are generally required to pay fees for the new course of study.

However, if a student switches to a course of study with a lower total cost than the previously studied course, and the switch occurs at a time when the sum of the contributions paid up to that point exceeds the total cost of the course with the lower total cost, no refund of financing contributions will be made.

g) Bachelor's/Master's students who have changed programs with a break

Master's students who have already completed a Bachelor's degree at the University of Witten/Herdecke are considered internal Master's students.

For internal Bachelor's/Master's students who commence a Master's degree at the University of Witten/Herdecke within the three semesters following the semester in which they were deregistered, the fee regulations of their initial enrollment apply.

h) Other regulations

Approved semesters off (e.g., study abroad semester, practical semester, etc.) are free of charge; they are not counted towards the standard period of study.

4. Second-degree students

Auditors are students who are enrolled at Witten/Herdecke University while simultaneously pursuing their primary degree at another university. Specific regulations are set by the faculties for their respective programs. Auditors pay the same fees as regular students.
Students enrolled as second-degree students can only obtain the Germany semester ticket through their primary university.

5. Fees for guest students

Auditors are not enrolled as students at Witten/Herdecke University. They may participate in university lecture series upon payment of a fee of €250.00 (students from other universities €60.00) per semester and lecture series. Alumni and university staff may, upon application (within the framework of Section 7, Paragraph 1), have the fee waived on a case-by-case basis. They may not take examinations or obtain degrees. The lecturer decides on the admission of auditors.

6. Students of the degree programs Aesthetic Facial Surgery and Implantology and Periodontology

Students in these degree programs pay an enrollment fee of €250.00 and a re-registration fee of €125.00 for each subsequent re-registration.

§ 3
Delay

If deadlines for re-registration, as listed in the enrollment regulations under § 3 para. 1, are exceeded, the following fees must be paid before continuing studies at the university.

Summer semester starting March 1st:	€120.00
Summer semester starting March 16th:	€240.00
Winter semester starting September 1st:	€120.00
Winter semester starting September 16th:	€240.00

§ 4
Re-registration fee for long-term students

Students enrolled in a degree program with a standard period of study of four or more semesters who exceed twice the standard period of study are required to pay a fee of €500.00 for each re-registration/leave of absence. Students enrolled in a degree program with a standard period of study of two or three semesters who exceed this period by four or more semesters are also required to pay the fee of €500.00 for each re-registration/leave of absence. The Executive Board decides on waiving the fee in justified exceptional cases.

The overview can be found on the next page.

study program	Standard period of study	Re-registration fee starting from the re-registration for the semester (FS) listed below

§ 5
Replacement of the SmartCard

1. The SmartCard will be reissued in case of loss upon payment of €25.00.

2. The SmartCard can be sent by post upon request. A fee of €5.00 will be charged for this service.

§ 6
Academic qualification

Doctoral candidates who are employed full-time at UW/H or a cooperating clinic, or who are pursuing their doctorate within a clinical chair of human medicine, or who are succeeding a new UW/H professor, or who are already enrolled students at UW/H when registering for their doctorate, or who submit their dissertation within one year of leaving their previous position, are considered internal doctoral candidates. All others are external doctoral candidates.

Postdoctoral researchers who are employed full-time at UW/H or at a cooperating clinic are considered internal postdoctoral researchers. All others are external postdoctoral researchers.

Fees for doctoral candidates and/or postdoctoral researchers

1. For the use of the relevant commissions or committees within the framework of the application for admission/opening of the corresponding procedure, the university charges a general processing fee for **doctoral, habilitation and APL professorship procedures.** a fee of €250.00, which is due before matriculation/enrollment.

2. For the matriculation/enrollment of **doctoral candidates and** The university charges **doctoral candidates from all faculties a fee** of €150.00, which is due upon matriculation/enrollment.

    a. All external **doctoral candidates** are required to pay a doctoral fee of €1,500.00. The exception is **doctoral candidates... Doctoral candidates** of the Faculty of Economics and Society (see paragraph 2 b).
    The doctoral fee is due either in full upon admission as **a doctoral candidate** or in two equal installments upon admission and deregistration.

    b. Participation in the Faculty's structured doctoral program is mandatory for all doctoral candidates pursuing a doctorate at the Faculty of Economics and Society.
    All external doctoral candidates pay a fee of €2,500 upon both admission to and withdrawal from the doctoral program. In addition, a semester fee of €1,250 per semester is charged for a period of three years (six semesters). Doctoral scholarship recipients from non-profit organizations are exempt from these fees.

    c. Participation in the **Ph.D. program in Nursing Science** incurs a fee of €3,000.00 per year for a period of three years. If the degree is not completed within the planned three years, no further fees will be charged.

3. As part of the habilitation procedure, all faculties charge **external candidates** a habilitation fee of €1,500.00. Habilitation scholarship holders from non-profit organizations are exempt from this fee at the Faculty of Economics and Society.

    The habilitation fee is due for payment upon submission of the habilitation documents to the relevant faculty.

§ 7
Remission and deferral

Unless otherwise stipulated in these regulations, the Executive Board or persons or bodies authorized by the Executive Board shall decide on the waiver and deferral of individual contributions.

§ 8
Proof of payment

If the university or faculties require proof of payment, those obligated to make the payment must provide proof of payment when it is due.
