

Selection criteria (in descending priority)

1. International students who must complete the German course according to their Learning Agreement.
2. International students who are (presumably) regularly enrolled at the UW/H. Preference will be given to the following in descending order of priority:
 1. Students who have already applied in the past but have not been offered a place.
 2. Students with no or only little knowledge of German (A1-A2).
3. If students apply for 2 courses, the 2nd course wish will only be granted if the place quota has not yet been exhausted and there are no other applicants who have not yet received a place. Non-general language courses are prioritised as follows:
 1. Courses from the fields of "scientific language" and "language for specific purposes", if the latter is clearly connected to the applicant's degree programme.
 2. Courses from the fields of "special courses " and " language for specific purposes ", if the latter is not clearly related to the applicant's degree programme.
